ACTIVE CONSTITUENT: 2 g/kg BIFENTHRIN

GROUP **3A** INSECTICIDE

Termiticidal Adhesive and Sealant to be used in conjunction with components of HomeGuard[®] for Precision Termite Management.

IMPORTANT: RESTRICTED CHEMICAL PRODUCT ONLY TO BE SUPPLIED TO,
OR USED BY AN AUTHORISED PERSON

Contents: 520 g

DIRECTIONS FOR USE (All states except TAS)

Restraints: Do not use for remedial treatment of pre-existing termite infestations

Pest	Situations	Rate	Critical Comments
Subterranean termites except <i>Mastotermes darwinensis</i>	Domestic, commercial, and industrial structures – approved to be used in conjunction with HomeGuard sheet products to form a bond to join sheets together. Also to adhere HomeGuard sheet products to other structural components (eg. timber, concrete, tiles, steel etc). Can be used in various situations whereby a termiticidal sealant/adhesive will assist in the prevention of concealed termite entry into a structure.	A single continuous bead applied between two surfaces will create a bond (and/or seal) with Termiticidal activity when used in accordance with product instructions.	Application of the adhesive/sealant as per the below steps can assist in the management of termites by preventing termites passing through a gap completely and continuously sealed using this product. <ol style="list-style-type: none"> 1. Surface must be clean, dry, free from dust, loose particles and soap residues. If required, clean with turps. 2. Cut nozzle tip at 45° to form a bead 4-6mm in diameter. 3. Apply firmly onto surface or into joint by pushing sealant ahead of nozzle, making a thick continuous bead. 4. If necessary, smooth sealant immediately with tool dipped in turps. Refer to the HomeGuard Product Manual for further installation instructions.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Product Information

This product is not suitable for use as a standalone termite management system for an entire structure. HomeGuard sheeting products (DPC, Blue and TMB) when used in conjunction with HomeGuard CoLars and HomeGuard GT are intended for use as a complete Termite Management System.

Caution: Use only in well ventilated areas.

APPLICATION

Insert sausage into gun. Cut the top off the sausage. Attach nozzle to gun and cut end at an angle to deliver a 5mm bead (approx).

Drying Time: Skins immediately, maximum toughness achieved over several days.

Clean Up: Turps. Remove dried sealant from skin by gently rubbing with petroleum jelly.

Notes: May damage some plastics eg. polystyrene, polycarbonate. Not for permanent water immersion. When cold, store at room temperature for easier use.

Storage and Disposal

Store in closed original packaging, in a cool, well ventilated dry area away from children, animals, food and feedstuffs. Do not allow sausage or packing to get wet. Do not store for prolonged periods in direct sunlight. Do not store HomeGuard Termiflex in high temperature areas such as utility boxes or tool boxes that are subject to direct sunlight. If this product is exposed to high storage temperatures it may ruin the integrity of the sausage and/or plunger. Dispose of empty foil by wrapping in paper, placing in a plastic bag and putting in garbage.

Protection of Wildlife, Fish, Crustacean and the Environment

Very toxic to aquatic life. Do not contaminate streams, rivers, wetlands or watercourse with product or the used containers. Do not use in or around fishponds. Do not use on fish tanks.

Protection of Pets and Livestock

Before applying, remove animals and pets from the areas to be treated. Ensure that treated areas are never accessible to pets or livestock.

SAFETY DIRECTIONS

Harmful if swallowed. Will irritate the eyes. Will irritate the skin. Avoid contact with the eyes and skin. When opening the container and using the product wear cotton overalls buttoned to the neck and wrist and wear elbow-length chemical resistant gloves and face shield or goggles. If product on skin, immediately wash area with soap and water. Wash hands after use. After each day's use wash gloves and contaminated clothing and face shield or goggles.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26. If swallowed DO NOT induce vomiting. Give a glass of water.

Safety Data Sheet
