

SILVAN NEW BLOWAMIST!!!

New Product Release - September 2012

SILVAN SELECTA BLOWAMIST FOR NURSERY, GREENHOUSE & SMALL ORCHARD SPRAY NEEDS

Many horticultural or intensive growing situations need a back pack fan forced atomized sprayer.

Silvan Australia has held the predominant position in supplying this sector since it acquired the former 'Marino Mister' business almost forty years ago.

Many of the original Marino Misters are still working which is a tribute to their longevity, reliability and product quality.

Now Silvan has released an updated mister sprayer known as the Selecta Blowamist as a knapsack spray unit that is purposely designed for nursery, greenhouse or small orchard applications. Its role is to create a fan forced spray mist that obtains a high coverage with penetration deep into the foliage cover. The new Selecta Blowamist has a 43cc two stroke petrol engine with a recoil start and an integrated blower. It has a 1.8L fuel tank and an engine throttle control on the arm of the unit.

The chemical tank has a fourteen litre capacity and the blower has a fan speed of 7,000 rpm maximum. The outlet tube with a flow adjuster allows the fan forced atomized spray mist to penetrate deep into foliage with a maximum throw of up to 15 metres. A flow control valve allows an adjustable dispensing rate from 0 to 2.3 litres per minute.

The complete unit is combined as a back pack with an empty weight of only 10 kilograms.

Silvan Selecta spokesman Leigh O'Rielly says that with the growth of many new horticultural ventures or specialty nursery and grow out enterprises there is significant demand for a portable backpack spray unit of the Selecta Blowamist type.

"Silvan has recently upgraded the design with several new features including thicker padding of the shoulder braces for increased comfort."

"The Selecta Blowamist is an ideal replacement for any original Marino Misters which may have come to the end of their useful life after all these decades."

The recommended retail price is \$399.00.

Silvan provides the Selecta Blowamist with a twelve months warranty with spare parts and full technical support.

For more information see Selecta resellers Australia wide or contact Silvan Australia on free call 1300 745 826, see the website www.silvan.com.au or email info@silvanaust.com for technical and model information.
