

Perfect for.....

The professional standard for multiple hole drilling in masonry materials using an SDS Plus Machine

Manufactured to top industry standards at our factory in Sheffield, all our SDS Plus feature:

A Unique Qfds Shank System

The Armeg Quick Fit Drill Shank System gives almost instant location of the drill bit in the SDS machine. Widened entry profiles at the top of the SDS grooves enable huge improvements in ease and speed of location and reduction of machine chuck wear

B European sourced high alloy steel to ensure strength and durability

C Proven flute geometries to enable maximum spoil removal, speed and penetration rates

D Automatically straightened on purpose made machines to 75% above PGM tolerance targets for a smoother drilling action with less machine stress

SDS Plus can be used in:

- Heavy duty concrete
- General concrete
- Hard bricks
- Soft bricks
- Lightweight blocks
- Natural stone
- Constructional granite
- Limestone

SDS Plus are ideal when drilling holes for:

- Fixings & anchors
- Through holes for cables & wires
- Through holes for pipes
- Pilot holes for coring
- Property maintenance

DID YOU KNOW?

Armeg is the UK's only SDS Plus manufacturing company and we have been making the drill bits since the late 1980's

TECH TIP!

Always keep the drill bit shank properly lubricated with a machine manufacturers recommended grease
