

TERM-seal™

SEALANT ACTIVE

For Cracks, Gaps & Fissures

For the protection of buildings and other structures from concealed entry by termites

TERM-seal™ Sealant Active (containing 0.1% Bifenthrin) is a no slump thixic compound specially designed to cope with rigors of building and joint movement. The sealant is termite resistant and waterproof.

- Highly UV stable and compatible with all TERM-seal™ products and other types of water based, waterproofing and paints
- Used to seal all types of construction joints, gaps and fissures
- Used in conjunction with TERM-seal™ PRM Active to form a gasket between the building substrate surface and the PRM and for sealing joints and overlaps between two sheets of PRM
- Can be used to treat around penetrations.
- Used to form a seal when jointing metal ant capping

PRODUCT OVERVIEW

Available in:-

- 10 litre buckets (Green Bucket)
- 360-gram cartridge box of 12 (Red Label)
- 900-gram cartridge box of 6 (Red Label)
